

# Catching Hell

Covert Ops Training for  
Gang, Narcotics, Undercover Officers and their Supervisors

***"The unwanted, being underpaid, who go unappreciated, doing the unthinkable for the ungrateful."***

Never in our lifetime has it been more difficult or dangerous to be a lawman/woman.

Police Officers being targeted for violence has escalated to epidemic proportions.

The ***Catching Hell*** training mission is to raise-the-bar in tradecraft expertise for our profession's covert operators making them smarter, safer, keeping them healthy and most importantly... alive.

This is not your fathers 'narc school'. It is not a re-hashing of glory stories or an endless stream of case studies. We address real-time, real-world problems and offer practical and innovative solutions to overcome them behind an exceptional and diverse line-up of speakers.

During ***Catching Hell*** we get personal. Post-Traumatic Stress Disorder, Suicide and other emotional conditions have become rampant. We don't shy away from these topics but rather, confront them head-on and when needed, make available solutions to eliminate those demons from the lives of those who protect us. Get healthy, stay healthy.

Three Days.  
Change the way you view the job.  
Change the way you do it.  
Change your life.

Lessons Learned, Squad Building, Command and Control, Cover Stories and Props, Women in Undercover Roles, Red Flags, Street Violence, Weapons and Self-Defense, Audio/Visual techniques, Long & Short Term Ops, Street Theater, Home Invasion and Murder-For-Hire Ops, Prosecutions, Health & Wellness, and more.

The lead instructor, **Jay Dobyns** is recognized both nationally and internationally as a lawman, more specifically as an elite undercover operative. He is the survivor of multiple combat shootings, over 500 undercover operations, and world-renowned investigative accomplishments.

Co-Instructors are renowned in their areas of expertise.

***"No one cares how much you know until they know how much you care."***
